

To whom it may concern,

I am pleased to recommend Aaron Munro from RPM who I have worked with for over twenty years.

Initially I worked with Aaron in Australia, where he completed shops and large projects. This included Westfields Bondi Commercial and involved Building intertenancy walls, mall bulkheads and LED's and stainless steel wall capping's. Aaron was responsible for managing a large crew and working within a tight time frame.

RPM was established in 2001 after Aaron moved back to Auckland in 2001. RPM is now my New Zealand supplier.

RPM has completed projects all over the North and South Island including –

The North Face

- Auckland
- Christchurch
- Queenstown

Lacoste

- ANZ Building Auckland

Lacoste shop in shops

- Smith & Caughey Auckland
- DJs Newmarket

Ugg

- Auckland
- Queenstown
- Christchurch

Coach

- Onehunga

True Alliance

- Main Office for the above Companies located in Newmarket

RPM has an eye for detail and a very professional manner that is second to none, with a team that can work on small or large projects. RPM understand budgets constraints and can work through the design process, keeping the design integrity while using more cost effective solutions. RPM have also performed works on Heritage sensitive buildings, working closely with the architects to respect the heritage guidelines.

Being based in Sydney, I rely heavily on Aaron to manage projects on my behalf in New Zealand, and I am confident to recommend Aaron, based on his excellent service, quality workmanship and project management skills that has seen us deliver numerous successful projects.

Regards,

Troy Balzan
